

MOFFAT

drop-in

drop in, serve up.

The new Drop-in Range of Food Display Modules provide a standard range of matching units and accessories that allow you to insert the working parts of a food service counter into any new or existing ambient counter structure. The units are delivered ready to drop into shop-fitted service counters, custom-built breakfast bars or buffets made from stainless steel, granite, marble, tiles or Corian.

Our design and manufacturing techniques deliver an inviting aesthetic and convenient operation working in unison. Flexibility enables a customised solution, providing an optimum food service layout. Hot and chilled models are available with curved or square glass profiles for high visibility of merchandise.

Bains-Maries
