Moffat offer many solutions;

REGEN Bulk Serve

Food is distributed to ward level in bulk in either a chilled or frozen condition for regeneration using Moffat's state of the art thermal technology that combines both a heating and holding facility for plating at the most convenient time all within the same piece of equipment.

Hot-Cold Split System

A hot and cold regeneration system all on one tray. Trays are assembled centrally with precooked food ready for regeneration on one side and cold food on the other. Food regeneration programming has the patient meal tray ready exactly at the desired time ready to serve at ward level.

Traditional Hot Line

Where food is cooked fresh each day portioned onto trays using a conveyor assembly line method and with the use of insulated trayware distributed using ambient meal delivery trolleys to the patients. By using insulated plate domes and bases food temperature will be retained for a maximum of 30 minutes from time of portioning.

Hot Line Single tray system

Hot and cold system all on one tray. Food is cooked fresh each day and portioned onto the single trays using a conveyor assembly line. The trays are loaded into the tray serve trolley and are given a super boost before travelling to the ward level. There the trolleys can be connected to a 13 amp socket keeping the hot side hot and the cold side cold until ready to serve.

Hot Line with High Heat Store Pellets

A more robust temperature maintenance system compared with Traditional Hot Line using wax filled heat store pellets and pellet underliners that lengthen the time of temperature retention to 60 minutes from time of portioning.

Bulk Serve

Food is cooked fresh daily and distributed to each ward in insulated containers. Special bulk serve ward level mobile service counters provide the perfect meal plating centre. The service units will provide both hot and refrigerated sections and can be manufactured to suit various ward sizes and menu variations.

Our Green Thinking logo highlights innovation in our manufacturing which makes our products environmentally conscious through energy savings, sustainability and efficiency in production

Vgen: model V2GR

Designed specifically for the cooking/regeneration and serving of fresh, chilled or frozen bulk food. This unit allows customer choice at the point of consumption. Useful for multi-food portioning and multi-food distribution.

Featuring E & R Moffat's pioneering, three-zone, multi-heat, control oven system. VGen enables total control of food temperature, texture and presentation. Complete with an accurately controlled, forced air refrigeration compartment and illuminated self-regulating hot-top.

Operating modes:

Cook & Serve	Use in the same manner as a traditional convection oven
Cook Chilled	Regeneration of chilled bulk food [0°C to 8°C optimum 5°C] to above 82°C
Cook Frozen	Regeneration of frozen bulk food [-6°C to -25°C optimum -18°C] to above 82°C
Keep Hot	Holding hot bulk food above 63°C, compartment controlled at 90°C
Keep Chilled	Holding chilled bulk food below 5°C, compartment controlled between 0°C & 5°C
Serve Hot	Hot-top serving area controlled at 90°C

Key Features:

- LED display lighting
- Coloured LED operation indication (LEDs flash to signal warning when oven door is open)
- 3 fully controllable oven zones in a landscape configuration
- One-piece, neo ceram, thermo-panel hot top
- Steam evac & oven door air curtain
- Touch screen, total control system with multi-function display & simplistic program choice
- Each compartment supplied with removable shelf hangers
- Wide choice of coloured front & end panels (standard colour is Goosewing Grey)
- Both refrigeration & oven use Moffat's renowned multi-fan recirculating air system
- R290 Refrigeration with clean-free, fan assisted condenser
- Lift-up hob for easy servicing

Benefits:

- Complete with 2m long cable & 13amp plug, as standard
- Food probe & HACCP compliant data recording system
- 24/7 program timer
- Keep hot & boost functions
- Three-program, total control system
- Easily manoeuvrable, lightweight & compact design

Vgen: model V2CR

Designed specifically for the regeneration and serving of chilled bulk food. Using “ChilloGen”, this VGen model allows refrigeration and regeneration in one holding space. First keep food chilled, then simply switch to regeneration manually/automatically without further handling of food. VGen then automatically holds food at the correct serving temperature until you are ready to serve.

Featuring E & R Moffat's pioneering, three-zone, multi-heat, control oven system. VGen enables total control of food temperature, texture and presentation. Complete with an accurately controlled, illuminated, self-regulating hot-top. All in one convenient unit.

Operating modes:

Keep Chilled	Holding chilled bulk food below 5°C, compartment controlled between 0°C & 5°C
Cook Chilled	Regeneration of chilled bulk food [0°C to 8°C optimum 5°C] to above 82°C
Keep Hot	Holding hot bulk food above 63°C, compartment controlled at 90°C
Serve Hot	Hot-top serving area controlled at 90°C

Key Features:

- LED display lighting
- Coloured LED operation indication (LEDs flash to signal warning when oven door is open)
- 3 fully controllable oven zones in a landscape configuration
- One-piece, neo ceram, thermo-panel hot-top
- Steam evac & oven door air curtain

Companion Trolleys and Transport Systems

To complement your Versigen Bulk Food Trolley when it is based at ward level or a dedicated food service point. For the movement and service of food, cutlery, crockery trays and all things that may be required to back up your Versigen Bulk Food Service.

Light enough for one person to wheel around the ward after the meal to collect all the soiled trays, cutlery etc. and return to the wash area.

As circumstances vary in each situation these trolleys are designed to suit your exact requirements. Based around a standard design which can be made shorter, longer, higher, whatever it needs to carry the items you want at the service point.

Open Companion Trolley

Open companion trolley for the transfer of plates, trays, cutlery etc from the kitchen to the service area. PLUS dirties return to the wash up area.

Model VCP3
Companion trolley and
optional hook on waste bin

Model VCP3E
Companion trolley with
customised extended legs,
containers for cutlery and
optional hook on waste bin

MODEL	Dimensions L x D x H mm	No. Shelves
VCP2	880 x 680 x 925	2
VCP3	880 x 680 x 925	3
VCP2E	880 x 680 x 1180	2
VCP3E	880 x 680 x 1180	3

Optional Extras

WESB Hook on Waste Bin

includes two large plastic containers

Models ending with
"E" = extended legs with additional four plastic pans for cutlery etc.

Transfer Dolly

Cassettes can be loaded in the kitchen, then complete with the temperature retention cover, conveyed on the Transfer Dolly to ward/service area where they are inserted into the oven/ refrigerated compartments ready for regeneration/refrigeration.

Conveyance Trolley

Model CA13

Versatile food conveyance trolley, suitable for the distribution of food from a food prep area to multiple points of service. Ideal for hospitals and other catering facilities providing a thermally insulated transport between main kitchen and wards satellite kitchens. Designed to compliment the V-Gen range of trolleys chilled food can be held/ prepared in a cold room and moved up to and loaded into the Re-gen Oven.

- Can hold up to thirteen G1/1 Trays or Gastronorm pans 65mm deep
- Lightweight and easy to move, made from a combination of Stainless Steel and Anodised Alloy
- Hygienic and easy to clean
- Push Pull handles and corner bumper protection
- Wide range of colour choice
- 13 shelf positions 4 shelves supplied as standard
- All round Galley rail on top for added storage
- Door opens 270°
- Robust door slam catch / handle
- Accommodates Eutectic Polar plates for longer storage periods

MODEL	Weight kg	Dimensions L x D x H mm
CA13	48	700 x 495 x 1310

Optional Extras

PPGAST Polar Plates

Versigen Single Tray Service Trolley System

for the transport and distribution of single tray service, suitable for fresh and chilled food, hotline and cook chill

Model VTSL24CR

Key Features

- Trolley manufactured from a combination of 304 stainless steel and aluminium
- Stainless steel chassis with reinforced stress points and fitted with heavy duty rubber buffers
- 4 x 150mm dia heavy duty non marking precision castors, 2 swivel with brakes and 2 fixed
- The end panels are available in a wide choice of colours Individual dividers and gaskets.
- Compartments fully insulated and fitted with a double skinned insulated door to each side. Doors open 180° and are complete with slam catch handles
- Easy replaceable doors seals
- Heating and refrigeration use the Multifan air recirculation system to ensure even temperatures
- Electric loading can be varied to suit individual requirements
- Designed for easy maintenance
- Full length push pull handles
- Stainless steel top platform
- Supplementary plug for ward level use.

Options

- Towing attachment
- Department identification plate holder

Cost effective and versatile solutions

The VTS trolley will pay for itself in a very short time, a highly competitive capital cost, reduction and better organisation of staff plus savings in overtime hours combine to make this a very sound investment. Maintenance and running costs are also low making the VTS trolley an attractive proposition for healthcare, homes and hospitals.

Labour saving

The trays are plated in the kitchen, loaded into the VTS trolley and no further handling is required until service. After the meal the soiled trays can be loaded into the trolley and returned to the wash up area.

Colour Choice

The Versigen Tray Service trolley end panels are available in a wide choice of colours so you can customise your trolleys to suit the decor or have a different colour for each ward.

Model VTSH30GR

Heavy Duty bumpers

Choice of compartments

Refrigerated compartment for holding cold food and regeneration compartment for hot food. Can be used for the regeneration of chilled food on the hot section of the tray while keeping the food on the cold section cold. Also for a Hotline system where the trayed food is placed into the trolley and the hot section is given a boost in temperature while the cold section temperature is reduced ready for service.

Chillogen compartment and refrigeration compartment.

With the Chillogen model, both sides of the trays are refrigerated so chilled food can be held for long periods. When ready for regeneration the Chillogen compartment converts from refrigeration to a heating system and the regeneration programme starts. During this cycle the refrigeration compartment continues in operation and keeps the cold side at the desired temperature.

CR (Chillogen) Controls

- LED Electronic Controls designed for easy programming and operation
- Isolator switch
- 3 programme selection touch pads
- Automatic or manual Keep Hot
- Pilot lights to indicate which programme is in operation
- Countdown timer display
- Buzzer signals the end of the cycle
- Regeneration section temperature display
- Refrigeration section temperature display
- The state of the Regeneration programme can be easily checked at any time as the Countdown timer, Regeneration and Refrigeration temperatures are on display at all times whilst the unit is switched on.

Single Tray

The VTS Trolley is supplied with a complete set of trays. The large capacity tray is divided into two sections, one for hot food and the other for cold. They add to the versatility by extending your choice of crockery. It is not necessary to buy special crockery as it is suitable for your existing plates and covers.

VTSHC Additional Cassette For High Units

Models ending in "C" have an internal roll in roll out cassette

Bulk Food Trolleys

These trolleys are designed for the distribution of bulk food meals in 1/1 gastronorm containers.

This versatile range can be supplied as an ambient trolley, or with keep hot compartments (BF2, BF3), refrigeration compartments or with a combination of these. With the plate converter fitted (either factory or retro) the PM range can accommodate 16 plated meals in each compartment.

The BF2B, BF2BR, BF3B and BF3BR also feature Bains Marie with covers to the top of the unit along with the combinations of ambient, heated or refrigerated compartments below.

Capacity

- Each compartment in a BF2 can hold 8 1/1 gastronorm containers 65mm deep.
- The BF2B Trolley has a bains marie well in the top that can hold 2 x 1/1 gastronorm up to 150mm deep, the bains marie is fitted with hinged covers which convert to service areas when opened out. Each compartment in a BF2B can hold 6 1/1 Gastronorm containers 65mm deep

Controls

- There is a digital control temperature and display to each compartment pre wired with a 13amp plug and cable.

Hygiene and Cleaning

- The Trolley is manufactured from 304 stainless steel throughout and all the internal compartments are formed into a one piece unit leaving a crevice free easy clean interior.
- The unit is also fitted with four 150mm diameter precision bearing castors two with brakes for easy manoeuvring.

Conversion kit to transform compartment to accommodate plated meals (PM).

Options

- Additional Bulk Food/Plated Meal grid shelf.
- VGEN tow bar.
- Triple tube trayslide.
- Plain trayslide with cutlery cut outs.
- VGEN end shelf.
- Gantry (for plain top units only).
- All round tubular gallery rail to plain top.

Hot Carts

Mobile compact hot carts for the transportation of hot food ready to serve

Model PF6

Model PF12

Forced air heating and recirculation which gives energy saving efficiency, faster heat up times, quicker heat recovery times and an even distribution of heat without troublesome hot spots.

- Mobile bulk food hot holding cabinets
- Ideal when used in a modern hospital catering unit
- Excellent back up facilities for conveyor belt service bain-marie trolleys
- Easy food transportation when replenishing satellite serving stations
- Designed to hold hot food in 1/1 Gastronorm pans at optimum temperature
- When fitted with shelves can be used as a compact trolley for banquets
- Perfect for serving meals on time at conference meetings and gala events
- Can be used as a compact plated meal trolley as well as bulk food
- Versatile compact unit ideal when space is tight as they have a small footprint
- Three sizes available 6 pans, 12 pans and 20 pans
- Force air heating system ensures fast heat up times energy efficiencies
- The heating unit is easily removable for maintenance and cleaning
- Complete with a humidifier tray for maintaining the moisture content in food
- All stainless steel construction
- Heavy duty push handles
- Industrial type castors 2 fixed, 2 swivel braked
- Rigid bumper on chassis for protection
- Internal removable rack system for easy conveyance and cleaning
- Illuminated on off switch with energy regulated adjustable control
- Simplistic gravity door latch operation

Conveyors

Food Distribution Conveyor System

These specially designed food standard continuous conveyor systems are electrically powered and constructed with a splash proof satin finish stainless steel superstructure supported on robust tubular legs with adjustable feet for levelling off and floor fixing or with the optional swivel/braked castors if mobility is required. Fitted with a full length heavy duty bumper on both sides for protection when used with ancillary equipment.

Designed to be used as a part of a specific hospital grade foodservice system where reliability, ease of operation, and hygiene standards are of the upmost importance.

The silent smooth running anti-static conveyor units have a simplistic control panel at one end featuring a start and stop button, variable speed control, with the option of forward and reverse motion.

Emergency stop switches are located at each end of the unit. There is also a fundamental photo electric sensor fitted at the receiving end of the unit which automatically prevents trays clashing and breakages.

At each end of the conveyor belt there is 600mm long work area. This is essential at the start of the operation for tray set up, and placement of index cards. This area is of equal importance at the receiving end to aid trolley loading and transporting systems.

As safety and hygiene are paramount when operating a food conveyor system these units are open on the underside to ensure there is no build up of debris or spillage. Rubber cleaning scrapers and finger guards are fitted, automatically cleaning and maintaining belt safety.

Splash proof sockets if fitted are protected by R.C.B.O

The easily accessible splash proof distribution switch board and mains isolator are located at the end of the unit below the main control panel.

An extensive range of matching mobile equipment and accessories are available to create the perfect facility for conveyed food service. The range includes Starter stations, Plate dispensers, Base dispensers, Rack lifts, Tray lifts, Bain-marie, Refrigerated units, General purpose trolleys, Storage carts, Basket stackers, Tables, Ambient units, Mobile shelves, Workstations, Bulk food trolleys, Tray service trolleys and Tray transport trolleys.

Flat Belt Type

300mm wide seamless 'White' synthetic anti-static flat belt, can be used to smoothly transport individual items of crockery or as an integral part of a tray line operation. Optimising staff workload by simplifying handling while increasing productivity and maximising food service efficiency.

*Flat Belt Conveyor
Fitted with optional swivel/braked
castors & splash proof sockets.*

MODEL	Type	Dimensions L x D x H mm	Overall Length mm
VCRB3	Belt Conveyor	3000 x 550 x 900	1800
VCRB4	Belt Conveyor	4000 x 550 x 900	2800
VCRB5	Belt Conveyor	5000 x 550 x 900	3800
VCRB6	Belt Conveyor	6000 x 550 x 900	4800
VCRB7	Belt Conveyor	7000 x 550 x 900	5800
VCRB8	Belt Conveyor	8000 x 550 x 900	6800
VCRB9	Belt Conveyor	9000 x 550 x 900	7800

Round Cord Type

Parallel 15mm diameter seamless green coloured synthetic round cords run 220mm apart. Designed for maximum hygiene with minimum cleaning.

The cord type conveyor unit can transport various sizes of trays side-by-side, either longitudinally or lateral which depending on the length of the tray is not always possible with the flat belt type conveyor.

*Round Cord Conveyor
Fitted with optional swivel/braked castors
& splash proof sockets.*

Optional splash proof sockets

Dispensers

High Temperature System

- Up to 60 minutes heat retention using the wax filled pellet system.
- Using a High Heat Pellet Dispenser is the only solution for ensuring pellets reach a minimum of 110°C.
- Stainless steel hinged lids prevents overloading and lowers operating costs by reduced heat loss. No covers to break or lose.
- Fan assisted high heat dispenser ensures every pellet and plate is dispensed at the correct temperature.
- Pellet Underliners are an essential component to protect patients and reduce heat loss. In addition the food underliner will protect cold food.
- Modern insulation materials used in the plate domes will guarantee food plated at 80°C will remain above 65°C for up to an hour.
- Old systems can be upgraded in stages by incorporating some of the components to assist budgetary constraints.

High Temperature Base and Plate Dispensers

Models VMBH Base Heater, VMPH Plate Heater, VMBPH Plate on Base Heater

These specially designed electrically powered mobile dispensers can be used to heat. • Special wax filled stainless steel bases to 110°C • Plates to 80°C • Or a combination of plate on base.

Compact lightweight units designed to be used as part of a specific hospital grade food service system. Simplistic controls with fan assisted heating. All dispensers are designed for easy maintenance and cleaning.

All stainless steel construction fitted with push/pull handles and fitted with four castors. Two fixed, two swivel with brakes. Tidy curly mains lead with plug park and heavy-duty corner bumpers. Complete with lock down lids. Fully insulated.

Forced air heating and recirculation which gives energy saving efficiency, faster heat up times, quicker heat recovery times and an even distribution of heat without troublesome hot or cold spots.

MODEL	Type	Weight kg	Dimensions L x D x H mm	Plate Size	Heating Time options	Plates/base per Tube	Average Temperature	Power Rating kw

VMBPH	Plate on Metal Base Heater	74	840 x 530 x 1025	9" (230mm)	75 mins	19Plates/19Bases	90°C	2.9
VMBH	Metal Base Heater	74	840 x 530 x 1025	9" (230mm)	135 mins	40	110°C	2.9

Fan Assisted Mobile Dry Well Bains Marie Workstation

Model VMBM2, VMBM3, VMBM4

These specially designed electrically powered mobile Bainmarie units are used to store and transport hot pre-cooked food that is ready for serving.

Compact lightweight units designed to accommodate various combinations of interchangeable Gastronorm size containers up to 150mm deep. Maximises the use of limited space. Suitable for many applications but more specifically used as part of a hospital grade food service system.

Simplistic controls comprising an

illuminated on/off switch indicating power is on and an energy regulator controlling the fan assisted heating unit.

Removable heating unit for easy maintenance and cleaning. All stainless steel construction. Fitted with push/pull handles and 4 all swivel castors, two with brakes.

Tidy mains lead with plug park and heavy-duty corner bumpers. Gastronorm containers are supplied separately. Please see Price list. (DRY HEAT ONLY)

MODEL	Weight kg	Dimensions L x D x H mm	Capacity	Power Rating kw
VMBM2	33	850 x 665 x 900	2x1/1Gn	1.0
VMBM3	42	1175 x 665 x 900	3x1/1Gn	1.0
VMBM4	56	1505 x 665 x 900	4x1/1Gn	2.0

Mobile Cold Wells

Model VMCW2, VMCW3, VMCW4

These specially designed electrically powered mobile units with a 200 mm deep refrigerated well are used to store and transport chilled food that is ready for serving.

Compact lightweight units can be used to hold various types of chilled product.

Made to accommodate different combinations of interchangeable Gastronorm containers up to 150mm deep.

Suitable for many applications but more specifically used as part of a hospital grade food service system.

Simplistic controls comprising an on/off switch indicating power is on and a adjustable thermostat controlling the refrigeration.

The well has a drain valve radius internal corners with removable perforated trays for easy cleaning.

All stainless steel construction fitted with push/pull handles and 4 all swivel castors, 2 fitted with brakes.

Stainless Steel Hinged/Lift Off Well Cover.

Tidy mains cable with plug park and heavy duty corner bumpers.

MODEL	Weight kg	Dimensions L x D x H mm	Capacity	Power Rating kw
VMCW2	64	850 x 665 x 900	2x1/1Gn	0.3
VMCW3	74	1175 x 665 x 900	3x1/1Gn	0.3
VMCW4	84	1505 x 665 x 900	4x1/1Gn	0.3

Mobile Polar Wells

Model VMPW2, VMPW3, VMPW4

These specially designed ambient mobile units with a 200 mm deep well are used to store and transport chilled food that is ready for serving.

Food is kept chilled by E&R Moffat polar plates, which are placed in the base of the well.

Polar plates keep food chilled for 2 to 3 hours before use the polar plates are charged for 8 to 12 hours in a deep freeze if longer periods of operation are required extra polar plates can be charged and used in rotation.

Compact lightweight units can be used to hold various types of chilled product.

Made to accommodate different combinations of interchangeable gastronorm containers up to 150 mm deep.

Suitable for many applications but more specifically used as part of a hospital grade food service system.

The well has a drain valve radius internal corners.

All stainless steel construction fitted with push/pull handles and 4 all swivel castors, 2 fitted with brakes.

Stainless Steel Hinged/Lift Off Well Cover.

Heavy duty corner bumpers.

Polar plates must firstly be charged for 12 hours in a deep freeze. They are then placed inside the well where they give off a steady flow of cold air for approx 2 to 3 hours. Once used, other polar plates can then be substituted thus keeping the well cold.

MODEL	Weight kg	Dimensions L x D x H mm	Capacity
VMPW2	34	850 x 665 x 900	2x1/1Gn
VMPW3	44	1175 x 665 x 900	3x1/1Gn
VMPW4	54	1505 x 665 x 900	4x1/1Gn

Versilift Plate Dispenser

Models UP1, UP2, HP1, HP2

Stainless steel top and base.
stainless steel outer panels for longer
lasting looks.Each tube has four
adjustable guides to enable it to
take various size plates. The Moffat
patented spring system is variable
to accommodate different weights
of plates. Heated models fitted with
the Saharafan forced air heating
system which is easily removed for
cleaning/ maintenance and adjustable
temperature control for fast and even
heat. Complete with an ABS plastic
cover to each heated tube (ambient
models, cover extra). Fitted with
100mm dia castors - two swivel with
brakes and 2 fixed.

Designed for the storage and
dispensing of plates

- Pop-up plates, lift one off and the
next one automatically moves up
into position for lifting
- Capacity 75 plates approx per tube,
depending on thickness
- Adjustable to suit 8" - 12"
(200mm - 308mm) diameter plates
- Top, base and plate guides in
stainless steel
- All heated models fitted with cable
and plug for 13 amp supply.
- Heavy duty robust corner bumpers
for extra protection.

Beverage Trolley

Model VBT

Lightweight and robust, the Versigen Beverage Trolley is ideal for the service of all beverages Available in Mahogany (as shown), or in stainless steel.

Features

- Fitted with four castors, two fixed, two swivel with brakes
- 6 x cutlery dispensers
- 3 x 1/9 GN plastic containers ideal for sugar, spoons etc
- 1 x 1/3 GN plastic container for waste (inset into the worktop).
- 4 plastic bins to suit runners under worktop
- suitable for use with Carlisle Beverage Dispensers (not supplied)

MODEL	Dimensions Ext. L x D x H mm	Capacity Basket
VBT	1040 x 620 x 1440	4

Note: Water Boilers/Liquid Dispensers are not included

Toast Warmer

Model TW1

Appliance for keeping toasted bread slices warm and crisp. Ideal for hospitals and health care facilities as part of a Beverage / Hydration trolley serving toast on the ward. Toast is kept warm between kitchen and bedside, facilitating hot toast for an entire ward.

The TW1 toast warmer can hold up to 30 slices of toast on twin racks for up to 45min at an ideal temperature until ready to serve. The racks are removable for easy cleaning and quick service. Complete with a removable hygienic crumb tray and full front hinged Perspex door.

Can also be used as part of a hotel breakfast service or any food outlet where high volume is required in a short period. Supplied with a 2 meter long cord set with moulded 13 amp plug for easy installation [13A 230v 50Hz]

MODEL	Weight kg	Dimensions Ext. L x D x H mm	Power rating kw
TW1	7	235 x 235 x 410	0.35

Ward Beverage/Breakfast System

Model BBT

The mobile ward service trolley allows beverages, refreshments and light meals to be served to patients and visitors at the bed side or in lounges and other communal areas. Perfect for use in busy hospitals retirement homes and various other types of healthcare facilities.

Easy to manoeuvre and simple to use and keep clean, a practical hygienic and versatile design with a wide range of options and features, multiple drawers and runners, for holding baskets pans and ingredient containers etc. Crockery carried on board.

- Easy to keep clean
- Light and easy to manoeuvre
- Corner bumper protection
- Solid stainless steel top
- Drawer complete with 4 section cutlery box
- Drawer complete with Polypropylene pan
- Robust and ergonomic galley rail on three sides
- Discreet pan for cleaning cloth / spray
- Push pull handles
- Fitted with four castors, two fixed, two swivel with brakes
- Wide choice of colour front and end panels
- Holds up to four dish wash baskets [500mm sq type]

MODEL	Weight kg	Max Weight Loaded	Dimensions Ext. L x D x H mm	Height to work top mm
BBT	50	150	1050 x 620 x 1440	900

Optional Extras

BTB 1 off Crockery baskets 500 x500 type [Trolley can hold up to 4 Baskets]
BTWB 1 off 10 litre Water Boiler Complete with retaining base and built in removable drip tray

TW1 30 slice Toast warmer

BCC 4 off Cereal containers with drawer adaptor

BID 2 off Ingredient dispensers [coffee sugar etc]

BES Fold Down End Shelf with galley rail

BESW Fold Down End Shelf with Waste bag aperture

BDL Lockable drawers / dispensers [per lock]

Ambient TT Range

This range of trolleys has been designed for use in conjunction with a typical hotline pellet system for the transport of plated insulated meals to ward level.

A variety of sizes, shelf pitch levels and 2 or 3 doors makes these trolleys suitable for every hospital application.

Model FCTT30

- All stainless steel construction
- Rear panels removable for cleaning
- Hinged doors open 270°
- Slam type door catches
- Recessed top for carrying additional items
- Heavy duty protective bumper all round
- Fitted 200mm dia. castors
