

Overview

Sanitising dispenser unit designed to be fitted to a wall or any existing counter-top. This compact automatic dispenser can be retro fitted to any existing counter-top or as part of a new bespoke food Servery design. Touchless automatic hand sanitiser dispenser machines with high volume, designed to pump out gel from 0.7 litre tank with additional storage for 2 x 5 litre bottles. The fully automatic hand sanitiser dispenser is battery operated removing the requirement to touch. Simply place your hand under the dispenser and a measured dose of gel, liquid soap or sanitiser will be dispensed. The dispenser can contain liquid soap, anti-bacterial gel, or 70% alcohol hand sanitiser.

Key Features:

- Easy access lockable doors for storage.
- Practical automatic operation.
- With hygiene in mind made throughout in bright polished stainless steel.
- Designed to be topped up during usage.
- Storage for two 5 litres of antibacterial hand sanitiser.
- Bulk fill design utilising 5 litre standard bottles. No special specific cartridge types.
- Ideal for areas where soap and water are not available, the hand sanitiser dispenser offers an easy and effective hand sanitising option.
