

Overview

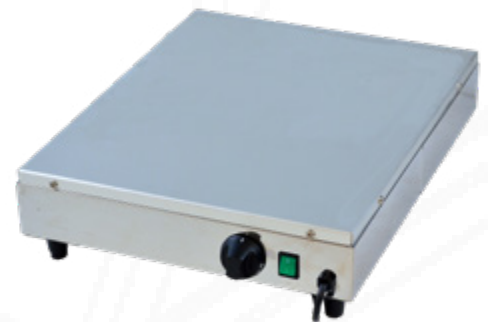

Table Top Hot Tops designed for serving hot food and maintain cooked food temperatures. These Hot Tops have an anodised alloy surface thermostatically controlled and adjustable between 30°C and 110°C. The Hot tops can hold Gastronorm size pans up to 100mm deep when fitted with the optional adaptors. The adaptors hold the pans in position and retain heat for higher efficiency. Models fitted with an over head quartz heated gantry illuminate the serving area and provide an envelope of heat above the pans. There is also models set on an incline with guides for burgers to slide down.
