

Overview

Designed specifically for the cooking / regeneration and serving of fresh, chilled or frozen bulk food. These ovens can also be used for pre-chilled plated meal regeneration. The unique multi-fan air circulation system allows fast and even heat distribution throughout. Designed for GN1/1 type pans, the CR10L has ten shelf positions (three grid shelves supplied as standard). The ovens have a bright, polished, stainless steel interior, satin finished outer panels, complete with a heavy duty hinged door with a positive cam action door catch. The unit is supplied with adjustable feet for height feet for table top sighting. These ovens can also be stacked one on top of the other and place on the optional a high stand, offering a more convenient working height and valuable storage space underneath. Alternatively the oven can be supplied mobile at low height. The CR10L can also have a CR5L oven stacked on top for full flexibility.
