

**Overview**

Table Top display units with an insulated well made to accommodate Gastronorm GN1/1 size eutectic type packs. Moffat Polar Plates keep food chilled for 2 to 3 hours. Before use, the Polar Plates are charged for 8 to 12 hours in a deep freeze. If longer periods of operation are required, extra Polar Plates can be charged and used in rotation. Holding pre-chilled food by contact cooling perfect for fruit and vegetables, salads, and cold drinks. These short term holding modules offers easy installation and flexibility of use. The polar top units are also fitted with an over head LED illuminated gantry complete with sneeze screen. **Polar :**

FTPG2
