

CHILLED MULTI-DECK MERCHANDISERS

Refrigerated Multi-decks Built for Everyday Retail

Moffat multi-decks are a trusted choice for coffee shops, supermarkets, hotels, schools, universities, delicatessens, restaurants, and hospitals. With sleek, modern styling, they elevate any front-of-house environment whilst helping to maximising your display space.

Four standard-length models are available to suit your layout, providing you with a practical and flexible multi-deck chiller solution.

Designed for front-of-house use, our multi-deck display fridges help to enhance product presentation and provide customers with easy access to drinks, pre-packed snacks, and dairy items.

Heated and ambient neutral models are also available.

Model: ML3
(Shown with optional pull down night blind and impulse baskets)

Built To Last

Designed for the fast-paced “grab and go” market, M Line chillers feature tough, food-safe stainless steel construction. Engineered for demanding commercial use, they deliver lasting durability and reliable performance every day.

Performance You Can Trust

Fully HACCP compliant for trusted food safety. Our commercial multi-decks combine powerful energy-efficient refrigeration with durable construction for reliable and long-lasting performance.

Optimised Efficiency

M Line chilled multi-decks help to reduce energy use and running costs. An advanced polar air curtain recirculates cold air, while night blinds, sliding doors, high-performance insulation and hydrocarbon refrigerant deliver ultimate efficiency.

Smart Control

Advanced airflow maintains a consistent temperature for food safety and freshness. An intuitive display controller with perspex guard provides clear system monitoring.

Display With Impact

Ultra-bright LED lighting delivers high visibility and energy savings. Snack baskets, front-of-shelf ticket strips, and panoramic glass sides improve presentation and boost “grab and go” sales.

Optional
Roller shutter or night blind.

Optional
Sliding double glazed doors.
